PROFILE

I passionately develop my programming skills through industry training and hackathons. I completed the "100 Commits" competition, demonstrating my determination and commitment. Creating software, especially in a team, brings me great joy.

I stand out with:

- Completed the "100 Commits" competition
- OSS project with 21 Github stars: GPT-Quiz Builder
- Ability to integrate AI into applications
- Participation in hackathons (Ranked 5th of 55)
- A certificate in project-based learning and teamwork

I am not afraid of challenges and approach solving difficult problems with enthusiasm.

PROJECTS

GPT-QuizBuilder   🔗 Live Demo   🔗 Repository

Developed as part of the "100 Commits" competition, this innovative project leverages the advanced capabilities of the OpenAI API to generate quizzes.

The application offers several compelling features:

- Instant Quiz Generation: Create quizzes on any topic within moments using AI.
- Learning Support: Enhance your learning experience with quizzes designed to reinforce knowledge.
- Save for Later: Easily save questions for future review.
- Detailed Explanations: Expand on answers with comprehensive explanations to deepen understanding.

Technologies used: React, TailwindCSS, DaisyUI, TypeScript, E2E(Playwright)

CERTIFICATES

Nerdbord Pro is a 3-month program of individual project work and collaboration in an open-source scrum team. 120 hours of practice, completed 2 projects, participated in 14 hours of mentoring sessions, and attended 14 hours of workshops.
